# REPAIR

RATHER THAN  
REPLACE!

FOR ALL OF YOUR  
CONCRETE LIFTING NEEDS,  
LET SPARK'S CONCRETE LIFTING  
SOLVE THEM FOR YOU!

## WHAT IS MUDJACKING?

Mudjacking is a repair technique whereby an engineered "slurry" material is pumped underneath settled concrete. As the mixture is pumped underneath the concrete, it fills voids and creates pressure on the concrete that lifts it upwards back into place creating a solid, stable fill

**MUDJACKING IS USED FOR RE-LEVELING LIGHTWEIGHT STRUCTURES SUCH AS:**

- DRIVEWAYS
- STEPS
- SIDEWALKS
- PATIOS

Spark's Concrete Lifting uses an engineered grout material that has been sieve tested in Geo-Tech labs and exceeds the set standard for foundation material.

**SPARK'S  
CONCRETE LIFTING**  
Repair Rather than Replace

# PET of the WEEK

**Meet TRUFFLES**

Hi there! My name is Truffles, and I'm a super sweet shepherd mix puppy. I had a bit of a rough start in life, but I'm ready to leave that all behind and start fresh with a loving family. As a puppy, I love to play - it's one of my favorite things to do! I'll greet everyone with happy wags and even some jumps, because I just can't contain my excitement. I'm still working on all of my basic commands, but I'm a fast learner, and I'm eager to please. I'm also a social butterfly, and I love meeting new people and other dogs. Playing with squeaky toys is another favorite pastime of mine, and I'll happily entertain myself with them if no one is around to play with me. I walk okay on a leash, but there's definitely room for improvement, so I would love someone patient to help me master this skill. I'm looking for an active family who can shower me with love and affection, because I have so much love to give in return.
