"Best Quality Repair at the Best Price"

PET of the WEEK

Meet CHASE

I am Chase, a German shepherd mix weighing 54lbs. I have a shy and nervous temperament, so it's best to approach me with patience and understanding. I need time to come out of my shell at my own pace. When meeting new people, I may feel apprehensive initially, but I respond well to positive reinforcement and absolutely love affectionate attention once I feel comfortable. It's important for you to go slow with me, avoiding sudden movements or loud noises that might startle me. Trust and bonding take time, so please be patient. Eventually, as I grow more at ease, I'll likely seek out affection and enjoy being petted. My shyness is just a part of who I am, and it can't be quickly corrected. But with consistent positive reinforcement and gentle encouragement, I can become more secure and confident in my environment. If you give me time, patience, and lots of love, I can become a happy and well-adjusted companion.

REPAIR RATHER THAN REPLACE!

FOR ALL OF YOUR CONCRETE LIFTING NEEDS, LET SPARK'S CONCRETE LIFTING SOLVE THEM FOR YOU!

BEFORE AFTER

WHAT IS MUDJACKING?

Mudjacking is a repair technique whereby an engineered "slurry" material is pumped underneath settled concrete. As the mixture is pumped underneath the concrete, it fills voids and creates pressure on the concrete that lifts it upwards back into place creating a solid, stable fill

MUDJACKING IS USED FOR RE-LEVELING LIGHTWEIGHT STRUCTURES SUCH AS:

- DRIVEWAYS
- STEPS
- SIDEWALKS
- PATIOS

Spark's Concrete Lifting uses an engineered grout material that has been sieve tested in Geo-Tech labs and exceeds the set standard for foundation material.

SPARK'S CONCRETE LIFTING
Repair Rather than Replace
